Dear Undergraduate Student:

On the other side, you will find a short survey related to your educational experiences at University Name. The purpose of the survey is to determine the extent to which your educational experience is affected by the nationality of the Teaching Assistant.

It should take you about 5 minutes to fill out the survey. You are not asked to identify yourself anywhere in the survey, so that it will be impossible to trace any filled-out questionnaire to a particular student.

Your participation in the study is strictly voluntary. The success of this work, however, depends crucially on how many people respond to the survey.

I hope that you will take this opportunity to air your views regarding this important aspect of your undergraduate experience.

Sincerely yours,

George J. Borjas
