### ACTIVE LISTENING "TO DO" PRINCIPLES

- 1) Think about what the other person is saying;
- 2) Demonstrate with your body language that you are paying attention;
- 3) Rephrase what you hear;
- 4) Probe for the underlying meaning / purpose;
- 5) Balance empathy and assertiveness;
- 6) Ask questions that deepen the conversation rather than shut it down;

### DEEPENING QUESTIONS

- 1) Motivation: this claim appears to affect you deeply, no?
- 2) Elaboration: you shared earlier that this action made you lose faith in government. Can you expand on this?
- 3) Observation: can you offer a specific example of what you describe as government waste?
- 4) Imagination: imagine that the Harvard Kennedy School Dean asked for your opinion on this. What would be your taken on the issue?
