

HARVARD KENNEDY SCHOOL
DEV-250 Second Year Policy Analysis Seminar
Course Syllabus for 2025-2026

Thursdays, 3pm-4:15 pm

**This syllabus is subject to change. A final version of the syllabus will be posted by the first day of class*

Faculty:

Section A – Littauer 140

Faculty:	Anders Jensen	Assistant:	Christine Dziuba
Office:	Rubenstein 328	Office:	Littauer 301
E-mail:	anders.jensen@hks.harvard.edu	E-mail:	christine.dziuba@hks.harvard.edu
Phone:	617-495-6172	Phone:	617-495-6172
Office hours:	https://my.timetrade.com/book/JHQNC (book office hours at this link)		

Section B – Littauer 230

Faculty:	Carmen Reinhart	Assistant:	Klara Kabadian
Office:	Littauer 313	Office:	Belfer 222

Phone:	617-496-8643		
Office hours:	See Canvas		

Section C – Rubenstein G-21

Faculty:	Rema Hanna	Assistant:	Lisa Munroe Korte
Office:	Littauer 340	Office:	Littauer 302
E-mail:	rema.hanna@hks.harvard.edu	E-mail:	lisa.korte@hks.harvard.edu
Phone:	617-496-1140		
Office hours:	https://my.timetrade.com/book/1236R (book office hours at this link)		

Note: Section assignments for **DEV-250** will be given to you at the beginning of the semester, based on your submissions on initial topic selection.

1. Course Description

The **DEV-250 “Second Year Policy Analysis,”** the capstone product of the MPA/ID program, is a course designed to help you further develop your professional skills as a development practitioner and to help you think about how theory and evidence can be used for policy design and implementation.

The main output is the SYPA report itself, which calls for the application of the theoretical and empirical techniques acquired in other courses (e.g. microeconomics, macroeconomics, management, politics, etc.) to an actual development problem. The report is written for a specific client (a government, agency, NGO, etc.) and must be geared towards that client. It involves the diagnosis of a problem, the formulation of a policy proposal, the assessment of political support and the development of a feasible implementation plan. This requires that you identify an issue or challenge that you care about, develop the conceptual and empirical basis for recommended action, and then present your analysis and recommendations in a written document that is also persuasive and politically astute.

The *process* of analysis itself, as well as the effective communication of the analysis to others, is an important part of the skill-building process (and your grade). Thus, in addition to the final product, you will be required to:

- Submit intermediate products throughout the process designed to further the analysis and gain feedback from others
- Effectively communicate your results through oral presentations and a self-standing “policy brief” or equivalent product

Clients: While the report must be written for a real client, you are not required to have an actual relationship with them. This is for two reasons: (1) not all clients on truly interesting development questions will be available and interested; and (2) clients' interests may not be aligned with the primary purpose of the SYPA, which is to define a problem and use techniques from the overall MPA/ID Program for both problem diagnosis and to map the solution space. Of course, having a real relationship with your client is completely fine, provided that this does not lead to a product that is inconsistent with the SYPA goals.

Resources: Several resources are available to help you develop your SYPA report:

- The *DEV-250Y seminar* will allow you to interact with section leaders and other MPA/ID students with similar interests. You will be assigned to one of three sections based on your likely SYPA topic, which you will provide immediately prior to the beginning of the semester. Section meetings are designed to coach you through the steps of preparing the SYPA and to develop your professional skills as a policy adviser. Section leaders advise individual students about both the substance and process of the SYPA.
- Each student will also have a faculty adviser, drawn from the HKS faculty, who has specialized expertise in at least some of the issues associated with his or her SYPA.¹ The most helpful advisers are those with enough interest in you and/or your project to actively assist you in developing a valuable SYPA. We strongly encourage you to discuss your topic with faculty members who might be interested in serving as an adviser as soon as possible. If you are still considering several possibilities, consult potential advisers about ways to define a topic. By **Thursday, September 25, 2025 (tbc)**, every student must have found an adviser. Those who have not done so will be assigned one as part of a school-wide process, but it is better to choose your own than to be assigned.

Students should note that it is their responsibility to meet regularly with their section

¹ In rare circumstances, faculty members from other schools can be recruited to be advisers, but permission to use non-HKS-affiliated faculty is required from your section leader: it is given *only* if the faculty member indicates a sufficient interest in the SYPA topic to volunteer their services.

leader and adviser; section leaders will provide guidance for their individual sections about what kind of meetings are expected.

Note that in the fall semester, a key output is the SYPA outline (discussed further below). Each adviser must confirm acceptance of the outline to the section leaders, as the outlines constitute a contract between the student, the adviser and the section leader moving into the draft and final SYPA.

The first full SYPA draft is due at the beginning of the spring semester. The spring semester is devoted to revisions, an oral presentation, submitting a final SYPA and preparing a policy brief.

2. Objectives of the SYPA Experience

The SYPA experience provides an environment for building and expanding a number of critical, professional competencies, including:

- Identifying and conceptualizing an important development problem;
- Interpreting how a problem is related to potential processes of change;
- Applying technical approaches to analyze these challenges, using tools from economics, political analysis and diagnostic approaches to implementation;
- Using effective empirical techniques—both quantitative and qualitative;
- Assessing the political supportability and authorizing environment for policy alternatives;
- Preparing practical recommendations for action by key decision-makers;
- Developing effective communication through both written work and oral presentations;
- Learning to provide and receive constructive feedback to colleagues on all of the above.

The combination of seminars, relationships with the adviser and the section leader, and interactions with other students, form the crux of the SYPA experience and present you with an opportunity to build these competencies.

For most, the SYPA will be an unfamiliar experience. Note that the SYPA is:

- **Not just a long class paper.** Students who try to do it during a few intense weeks in February always find that they have misjudged the quantity of work. They produce an inferior product and are at a high risk of failing. Don't fall in this category!
- **Not a research report.** Students who have modeled their SYPA on research articles have also been disappointed in their final grade. While strong research is a necessary *input*, the SYPA is essentially concerned with *using* the research findings for practical policy recommendations.
- **Not just a methodological exercise.** Students who carry out elaborate technical analyses are sometimes surprised to find that they need to deal with the practical implications of messy policy situations involving stakeholders with diverse and conflicting interests.

What, then, is the SYPA? The SYPA **is an analysis in which you frame a development problem conceptually, use analytic tools to generate a better understanding of the problem and of the options available for dealing with it, and provide recommendations and implementation advice tailored to the needs of decision-makers.** Good SYPAs provide *conceptual, analytic, and empirical support* for the recommended actions, as well as clear analysis on how the problem (and your recommendations) relate to drivers of change and interact with political processes. Good SYPAs provide an assessment of implementation capacity and give a realistic framework for the implementation of the recommendations.

The SYPA is designed to be a contribution to general knowledge, in addition to providing advice to a policy maker. At the end of the process it will be made publicly available, online, via the HKS library system. **Your Draft and Final SYPA must be digitally accessible to meet the [Harvard University Digital Accessibility policy](#).** Please refer to Canvas for more information.

Students can work either as individuals or as pairs. If you work as a pair, you will both receive the same grade (unless there are large differences in the participation part of the grade). We encourage students to work as a pair when possible, as it provides a nice opportunity to also further develop team-building skills.

3. Enrollment

All second-year students in the MPA/ID Program must enroll in DEV-250. The course is worth 6 credits. Successful completion of the SYPA is a prerequisite for graduation from the MPA/ID Program. This course is restricted to MPA/ID students only.

4. Course Design

There will be three sections of DEV-250. We will try to group students with similar interests, as well as to balance the size of the sections.

The course is structured to take students through a sequence of intermediate steps for policy analysis, including:

- defining a policy question
- literature review and conceptualization
- alternative empirical strategies
- political analysis
- analysis of implementation
- making effective presentations
- targeting policy briefs to alternative stakeholder narratives

The meetings of DEV-250 will take several forms:

- **Plenary class meetings.** A small number of classes will bring together the entire MPA/ID second year class to introduce and discuss a topic.
- **Section meetings.** Section meetings will be used to take you through the various phases of the work, from initial problem definition to the policy brief, using a mixture of small group work, presentations, discussions and feedback. Giving feedback to others is an important professional skill, and this will be integrated into the course in the section meetings.

- **Individual meetings with section leaders and advisers.** You should work with your section leader and your adviser to clarify your topic, develop strategies for collecting and analyzing data, and examine the implications of your analyses and recommendations. You bear responsibility for arranging meetings.

5. Human subjects

If a SYPA involves research or use of data involving human subjects, this needs to be assessed and approved by Harvard's Committee on Human Subjects (CUHS) **before** the research is undertaken. Screening for whether your work involves human subjects will be done early in the fall semester and managed by section leaders. Expert interviews do not count as human subjects but still require approval by section leaders of an oral consent form. Anders Jensen is the point person for human subjects for the course.

All students will need to prepare a submission to section leaders for Human Subjects Review, by September 25, 2025. Section leaders will determine whether you have human subject issues. If your research does not involve human subjects, the process ends there. If it does involve human subjects, then you will need to make a formal submission to Harvard's Committee on the Use of Human Subjects in Research (CUHS). Clearance by CUHS is required before undertaking any research involving human subjects. You will also be required to have completed the human subjects training and to have received a CITI (or equivalent) certification. If you anticipate human subjects issues, it is recommended you start discussing these earlier than this deadline.

6. Deadlines

The SYPA is organized around six key deadlines (note there may be other smaller deliverables within individual sections as well to help keep you on track with your SYPA). These deadlines are fixed, so do allow enough time to complete all assignments:

DATE	DELIVERABLE
Sunday, August 31, 2025	Initial topic selection
Thursday, September 25, 2025	Submission of adviser preference
Monday, November 17, 2025	SYPA outline & Stakeholder analysis
Sunday, February 1, 2026	First draft of SYPA
Sunday, March 1, 2026	Policy brief
Monday, March 16, 2026	Final draft of SYPA

- a. **Topic selection:** you will provide an initial description of your topic, in one or two paragraphs in a Qualtrics survey. Your assignment to a DEV-250 section will be based on this. While few students have a fully specified topic at this point, the overwhelming majority of past students have written SYPAs on some aspect of the initially identified topic. Reallocations between sections may occur as topics evolve, subject to keeping roughly equal section sizes.

- b. **Adviser selection:** this is the date when all advisers are assigned. This is a school-wide process that goes beyond MPA/IDs—we strongly encourage you to meet with advisers early to get a good match.
- c. **SYPA outline:** this is essentially a contract between you, your adviser and your section leader, covering the substance of your SYPA. It should include the conceptualization of the policy or institutional reform problem, your initial literature review and stake-holder analysis, your methodology and your planned analysis of your SYPA. It should also include a 1 page to-do list of what you need to accomplish from herein to complete the draft. It may be necessary to redraft the outline before all parties concur in its design, but it is vital that this agreement be completed before the end of the semester so that you can work on an agreed plan during the winter break. Advisers must sign off on the outline, either literally or by email.
- d. **First SYPA draft:** this is the basis for (a) making a presentation to the members of your section and (b) getting feedback from your adviser and section leader. The better developed your first draft, the higher the quality of feedback you will get from both those sources. We *strongly* recommend that you prepare a first draft that is a complete product.
- e. **Final SYPA:** due **March 16, 2026**, immediately after the start of the Spring Break (you are free to turn it in earlier). This date is intended to keep your Spring Break free for other activities while offering you the first weekend of the break to apply last minute finishing touches to your work if needed. Your SYPAs must meet the [University's Digital Accessibility Policy](#) requirements, and your SYPAs will be checked for digital accessibility. **Failure to submit a SYPA which satisfies the digital accessibility requirement will delay the release of your final grade.**
- f. **Policy Brief:** this is a self-standing product, in which you will write a sharp, four-page brief that is both positioned strategically to interact with the positions of the various stakeholders, and is highly accessible and engaging. You may choose different vehicles, such as a website, in discussion with your Section Leader.

The way to get the most from this process is to take these deadlines seriously, in substance and timing, so you do not have to play “catch up” just to survive. **Getting behind is the most common problem for students working on SYPAs.** It is easier to work on immediate course demands than to work on the intermediate products in the fall semester. It is critical to define a feasible topic as soon as possible so you can make realistic plans.

Major assignments should be turned in electronically by midnight on the due date (unless otherwise indicated in the syllabus or your section leader). Other section assignments are due electronically at midnight the day before the section. Late submissions will affect your grade. The final SYPA will also be submitted electronically, with Section Leaders and Advisers letting students know if they also need a hard copy.

7. Grading

DEV-250 is worth 6 credits and will be graded on the usual HKS grade distribution. **Writing an acceptable SYPA (B- or better) is a pre-requisite for graduation.** Grades will be based on the quality of your final SYPA, as jointly assessed by your adviser and section leader, and on your submissions and presentations in the preparation of the SYPA, participation in classes and section meetings, and the policy brief. The grading breakdown is as follows:

Assignment	Percentage of course grade
Final SYPA:	50%
SYPA Outline & Stakeholder Analysis:	15%
Draft SYPA:	15%
Policy Brief:	10%
Class Participation/Assignments:	10%

The grades for the final SYPA and policy brief will be based exclusively on the written products. Grades for the SYPA outline and the draft SYPA will be based both on these written products and class presentations.

The class participation element will be based on the quality of your contribution to class discussions, and completion of the other intermediate assignments.

Late SYPAs (those turned in after the March 16th deadline) will be automatically penalized two grades (e.g., from B+ to B-).

Final papers that your adviser and section leader consider unacceptable (below B-) will be returned for further revision and such revised SYPAs cannot receive a final grade higher than B.

8. Joint degree students

The requirements, timing and grading for joint degree students will be the same as for other students, with two qualifications:

- g. Students undertaking a joint HKS/HBS degree will have an HBS adviser as well as an HKS adviser.
- h. Students at other schools may not be able to join class sessions in the Spring Semester, depending on their location. All deadlines for written assignments remain the same and we will expect you to make a presentation by video conference (whether or not the rest of the class is on campus.). We encourage you to make special efforts to stay in touch with section leaders and advisers throughout this semester.

9. Course Policies

Please take into consideration the course policies noted below. Students should reach out to their section leaders with any questions regarding these policies.

- i. **Academic Integrity:** Students are always welcome to work together and discuss class materials, course concepts, and assignments to help gain a better understanding of the materials. However, any assignment submitted for this

course is presumed to be your own original work (or that of a student pair if applicable). If and when you use words or ideas written by others, please make sure to cite these appropriately, and to indicate other students with whom you have collaborated. More information about Harvard's policies on academic integrity may be found in the Student Handbook and by referring to the [HKS Academic Code](#).

- j. **Generative AI for Coursework:** You may use generative AI tools such as ChatGPT Edu throughout this class. Please be aware that you are fully responsible for the accuracy and reliability of your work and should always check the output generated by AI.

Faculty and practitioners are figuring out how (and how not) to use emerging generative AI tools such as ChatGPT Edu. These tools can save time and expand access to information. However, our goal is the development and deployment of valuable skills; reliance on generative AI tools can limit the building of those skills and make evaluation of work difficult.

Though this class accepts wide-ranging use of AI, including in submitted assignments, you must acknowledge your AI uses: please accompany every submitted assignment with a brief note describing how you used AI. For example, you can use AI to: be a brainstorm partner to come up with multiple rounds of ideas and refine them; edit code or seek technical help with R, Excel, Python or other programming/statistical programs; have a discussion with you about course concepts, or check that your understanding of a concept is correct; check or critique your pre-existing analysis or written text; help generate visualizations, charts or images. At the same time, the specific activities listed below are prohibited in this course:

- Inserting a homework question directly into AI and submitting the output.
- Asking an AI tool to suggest conclusions or recommendations from evidence.
- Using AI to provide starting points and outline / plan out a paper, memo, speech or other communication.
- AI *can* be used to check and suggest fixes to grammar and spelling, but should otherwise *not* be used to directly write the text for any paper, memo, speech or other communication (for example, AI should not provide the written first draft of your SYPA based on a list of starting points provided by you).

In addition to our syllabus policies, students are reminded they are subject to the [Academic Code](#) in the [HKS Student Handbook](#) as they relate to generative AI. It is highly recommended that you use Harvard-managed tools, such as HKS-provided ChatGPT EDU and, when available, instructor-created chatbots like PingPong, rather than the numerous commercial GenAI tools. You should never upload copyrighted materials, such as course readings, cases, or faculty slide decks, to commercial versions of GenAI tools (i.e. any product not managed by Harvard). If you have any doubt about whether a specific use of generative AI is permitted for an assignment or course, you should discuss it with your instructor prior to using it.

- k. **Classroom Conduct:** Laptops and tablets are allowed for notetaking purposes only. Please silence and put away cell phones. In this course, we follow the non-attribution+ rule. You can share in a general way what you learned, but not who was here or who said what, without expressed permission.

10. Accessibility & Accommodations for Student Learning

Harvard University values inclusive excellence and providing equal educational opportunities for all students. Our goal is to remove barriers for disabled students related to inaccessible elements of instruction or design in this course. If reasonable accommodations are necessary to provide access, please contact the local disability coordinator, Melissa Wojciechowski St. John (melissa.wojciechowski@hks.harvard.edu). She is the [Senior Director of Student Services](#) in the HKS Office of Student Services. Accommodations do not alter fundamental requirements of the course and are not retroactive. Students should request accommodations as early as possible, since they may take time to implement. Students should notify Melissa at any time during the semester if adjustments to their communicated accommodation plan are needed.

DETAILED CLASS SCHEDULE

(While deadlines are fixed, specific meeting schedules may vary by section, to accommodate travel, group composition etc.)

Fall Semester schedule

Date	Class Type	Description	Deliverable Due
8/31/2025 (Sunday)			DEADLINE: INITIAL TOPIC SELECTION
Thurs, 9/4/2025	Section Meeting	<i>Sharing and exploration of Initial Problem Selection:</i> Students will present their initial ideas on the problem that they want to study, why they are excited on this problem, and anticipated challenges in doing so.	Come to class ready to discuss your initial ideas!
Thurs, 9/11/2025	Section Meeting	<i>Reviewing a SYPA.</i> We will deconstruct a previous SYPA as a group in relation to the actual grading criteria that will be used to evaluate your SYPA. Continuation of workouts on initial ideas	Come to class having read the assigned SYPA and having filled out your grading sheet.
All Sections - Thurs, 9/18/2025	Plenary - L-140	<i>What is evidence?</i> This session will discuss how to think about empirical investigation of your policy question, including where complete and decisive evidence is unavailable. It will include quantitative as well as qualitative evidence, discuss data sources and advise on other HKS resources. A visitor from Harvard's Committee on the Use of Human Subjects will explain their review process.	

Fall Semester schedule (continued)

Date	Class Type	Description	Deliverable Due
9/25/2025		This is to be submitted through HKS-wide system (preferably with a mutually agreed deal).	DEADLINE FOR SUBMISSION OF ADVISOR PREFERENCES
9/25/2025		All students must submit their proposal using the standard form to Section Leaders, who will resolve non-human subjects cases and decide if your project is categorized as human subjects research. All students with research involving human subjects will submit to CUHS using the on-line portal and must have completed CITI training.	DEADLINE FOR HUMAN SUBJECTS SUBMISSION
Thurs, 9/25/2025	Section Meeting	<i>Literature review and existing evidence:</i> The assignment for this week's section is to have completed an initial 2 page write-up of relevant literature. Students will present an initial summary of their literature review and continue to work on conceptualizing their SYPA.	Come to class having completed the write-up of your initial (2 page) literature review
Thurs, 10/2/2025	No class: Replaced with office hours	No class: Students will meet with their section leader in OH to discuss progress on defining the SYPA problem, literature and empirical strategy	Come to OHs with progress notes on SYPA conceptualization and empirical strategy
Thurs, 10/9/2025	IRB Training Session (optional) - L-140	No class: Students who received an email from Professor Jensen the week of 10/2, regarding their Human Subjects Survey submission are STRONGLY encouraged to attend this session	
All Sections - Thurs, 10/16/2025	Plenary - L-140	<i>Presentation on political analysis (including stakeholders), administrative feasibility and formulation of recommendations.</i>	

Fall Semester schedule (continued)

Date	Class Type	Description	Deliverable Due
All Sections - Thurs, 10/23/2025	Plenary - L-140	<i>Presentation on making effective presentations.</i>	
Thurs, 10/30/2025	Section Meeting	<i>Presentation in section of hypothesis and challenges in preparation: A higher stakes presentation, with each student or student pair presenting the case for their policy question, initial hypotheses and analytic approach to their client. It will be in full section, with PowerPoint or equivalent, and role play, and will be over up to three weeks, to allow space for all to present.</i>	Bring your presentation to present + each student will be required to provide written feedback to one assigned process partner.
Thurs, 11/6/2025	Section Meeting	<i>Presentation in section of hypothesis and challenges in preparation, cont'd</i>	
Thurs, 11/13/2025	Section Meeting	<i>Presentation in section of hypothesis and challenges in preparation, cont'd</i>	
11/17/2025 (Monday)		The SYPA must be agreed on with your advisor and section leader before the end of the semester.	DEADLINE - SYPA OUTLINE DUE; STAKEHOLDER ANALYSIS DUE
All Sections - Thurs, 11/20/2025	Plenary - L-140	<i>Presentation on digital accessibility. Staff from HKS Library will lead this session on digital accessibility.</i>	
Thurs, 11/27/2025	<i>No class: Thanksgiving Break</i>		
Thurs, 12/4/2025	<i>No class: Replaced with OHs</i>	No class: Students will meet with their section leader in OHs to discuss feedback on outline and stakeholder analysis, and work plan for winter break to complete 1 st SYPA draft	Come to OHs with notes on work plan for winter break to complete 1 st SYPA draft

Spring Semester schedule (NOTE: There are no weekly classes in section during the Spring semester)

Date	Class Type	Description	Deliverable Due
2/1/2026 (Sunday)		A full draft of the SYPA to be submitted to the Section Leader and Adviser	DEADLINE FOR DRAFT SYPA
First weeks of February	Section Meetings (TBD)	<i>Individual Section Arrangements for the Oral Presentations Using Class and Extra Time:</i> In order to give students time to present their SYPA recommendations and incorporate feedback, the section leaders will make arrangements for several sessions, using both the normally scheduled Thursday classes and additional class times. The goal is to allow us to complete all presentations by the fourth week of February, giving you a minimum of three weeks, and generally significantly more, to prepare your final SYPA. Presentations will be to the whole section, with other students having assigned roles as stakeholders or to give feedback, unless decided otherwise by your section leader.	Presentation of Draft SYPA
03/1/2026 (Sunday)			SUBMISSION OF POLICY BRIEF
3/16/2026 (Monday)		You must send an electronic copy to the library using the submission link provided on Canvas, and either an electronic or hard copy to your section leader and adviser, depending on their preference. Of course, you may turn in your final SYPA earlier than the deadline and take full advantage of the spring break.	FINAL SYPA DUE BY 4PM!
